FIRE BACK AT CAPITALISM

Jacob Blake was shot by the racist enforcers of the brutal political and economic system of capitalism. The origins of the institution of kkkops is that of oppressors of European immigrant workers in the North and hunters of enslaved Blacks fighting for their freedom in the South. Their roles haven't changed at all.

This profit system continues its tradition of perpetuating and using racism to divide and terrorize us. We in Progressive Labor Party (PLP) believe that our class, the working class, must continue to organize ourselves as a revolutionary force. We must fight racism, sexism and all the other ways the ruling class attack and divide us!

PLP is an international revolutionary communist party dedicated to overthrowing this murdering racist government and system. We can only succeed by joining forces with our working class sisters and brothers who are sick of racist terror and are ready to fight back. We support the workers in Kenosha in your rebellion against kkkop terror. We stand in solidarity with Jacob Blake and his family, We are here to link our struggles against the brutal system of capitalism.

During these twin pandemics of COVID-19 and racist economic deprivation, it is becoming clearer to workers that the billionaire capitalists who run this system are the only ones surviving and prospering. All workers, but especially Black and Latin, are faced with unemployment, underemployment or working in dangerous front-line jobs. No wonder we are more likely to die than the general population.

We are the ones who populate the biggest prison system in the world. Left behind are families and communities, neighborhoods and lives all destroyed to maximize their profits by any means necessary. Racist capitalism profits from the super-exploitation of Black workers! A system organized around the special hatred and oppression of an entire group of people, separated by the profit-driven concept of so-called "race" and the very real system of racism, must be destroyed!

Right now, the racist rulers have their hands full. They are fighting each other for power and influence, here in the US. They are facing growing pressure from ever more powerful rivals, China and Russia. They know their world order is crumbling and they are trying to pick up whatever pieces they can. On top of all that, they must deal with this 400-year racial reckoning.

Let us not give them a moments rest! Let us prepare for our ultimate victory to end their racist system once and for all! We must establish a society run by the working class, under the banner of communist revolution. When we do that, we will smash their racist systems of police, mass incarceration, unemployment, and all other inequalities!

To find out more about our Party and our fight, check out our newspaper, Challenge-Desafio at www.plp.org. Follow us on social media to get our take on the fights workers are waging all over the world!
